

LITHUANIA

THE EDUCATIONAL STRUCTURE OF THE REPUBLIC OF LITHUANIA

1 Enrolment stopped in 2003.

2 Children with special needs may attain education at special schools or by attending classes of general education.

3 The scheme includes an indication of the most usual duration of higher studies.

4 Residency studies are cycle III studies (just like doctoral and post-graduate art studies).

5 Some special schools have preparatory classes.

6 Basic schools may choose to not implement pre-primary preparatory and primary education curricula as well as curricula falling under the second content centre of basic education.

7 Secondary schools may choose to not implement pre-primary preparatory and primary education curricula as well as curricula falling under the first content centre of basic education. In separate cases gymnasiums may choose to implement pre-primary preparatory and primary education curricula as well as curricula falling under the first content centre of basic education.
